RE: Additional Extension of Current USACE Lab Validation

Dear Mr. Ayithi:

Your laboratory, Radise International, Inc., Riviera Beach, Florida, has requested an inspection for validation by the US Army Corps of Engineers which will not be completed by the current validation deadline of 9 SEPT 2018. An extension is needed to allow time for the Materials Testing Center to complete a laboratory audit of the commercial testing facilities. Your facility is scheduled for inspection during the week of 27 AUG 2018.

The report of inspection upon which the current validation was based was examined. The current Corps of Engineers materials laboratory validation of Radise International, Inc., Riviera Beach, Florida is hereby extended by 30 (thirty) days from the date of 9 SEPT 2018 or to **9 OCT 2018**.

If you have any questions or comments concerning this extension, please contact me at (601) 634-2313, fax (601) 634-3242, or by e-mail: [chad.a.gartrell@usace.army.mil](mailto:chad.a.gartrell@usace.army.mil).

Sincerely,

A handwritten signature in black ink, appearing to read "Chad A. Gartrell".

Chad Gartrell, PE  
Director, Materials Testing Center
